## SUMMARY

Currently working as a Developer Associate at TD. Graduated in the Systems Analyst program at Sheridan College with High Honors (GPA 3.94). Over 2 years of experience working as a developer and eager to learn.

## WORK HISTORY

---

### Developer Associate

01/2020 – present

*TD Bank*

*Toronto, ON - Canada*

- Support and create features for TD Gigs, an internal platform for short term assignments, using Angular, NodeJS and MySQL
- Develop scripts for spreadsheet automation using Python
- Develop tools for mainframe support using SAS and JCL
- Assist with package handling, assisting with the requirements to transfer changes from dev to production

### Python Developer Research Assistant

09/2019 – 12/2019

*Sheridan College*

*Brampton, ON - Canada*

- Responsible for the design and development of a Dashboard for data visualization in real time
- Develop using Python with Tkinter
- Create a native Android mobile app version
- Data stored and retrieved from a MySQL database

### Jr. Web Developer and QA Analyst (2 co-op terms)

05/2019 – 08/2019

*Government of Ontario*

09/2018 – 12/2018

*Toronto, ON - Canada*

- Implement new features and support most components of an intranet, which included front-end created in Vue, back-end using PHP with customized Wordpress, and an API written in GoLang
- Write and improve SQL queries for retrieving data accurately and efficiently
- Work with Docker and Vagrant for creating and debugging code in a local environment
- Develop automated test scripts using Selenium, Codeception and Bamboo

### Co-op Developer

01/2018 – 04/2018

*HitGrab Game Labs*

*Toronto, ON - Canada*

- Develop a multiplayer word game prototype
- Front-end written with JavaScript and jQuery, back-end with NodeJS and MongoDB
- Use TeamWork to organize the project deliverables in an Agile way

### Peer Assisted Learning Leader for Computer Math

09/2017 – 12/2017

*Sheridan College*

*Oakville, ON - Canada*

- Plan, prepare and conduct one-hour sessions weekly where the most important topics given in class are revisited and practiced
- Encourage class's participation and guide the students towards the solution

## Projects

---

### **Capstone – Bike Loan for Sheridan HMC Campus (awarded 1<sup>st</sup> place)**

Web application that would allow Sheridan Bike Hub to manage their Bike Rental program by registering customers and keeping track of inventory and rentals, as well as managing any late returns.

- Front-end developed using Angular.
- Back-end is a RESTful API using Spring Boot with Hibernate, having PostgreSQL for the RDBMS
